Align your drill rig in under 5 minutes

The Gyro RigAligner™ is a technological improvement on traditional rig alignment methods. Its north seeking technology paired with automated software makes it driller operated, replacing third party surveying services. Reduce costs and save time using our advanced rig alignment technology.

Lightweight device, built for heavy-duty use

Weighing only 4.4 kg (9.7lbs), this device was designed to be convenient and portable in heavy-duty conditions. Our solid-state advancements deliver real-time results using our wireless handheld device.

Eliminate re-drilling and reduce downtime

Using our Navibore™ technology, the Gyro RigAligner™ provides the most accurate and reliable data in the drill rig alignment industry. Eliminates inaccurate data to maintain superior quality control and reduces downtime to complete your project as efficiently as possible.
