Gyro RigAligner™

Align your drill rig in
under 5 minutes

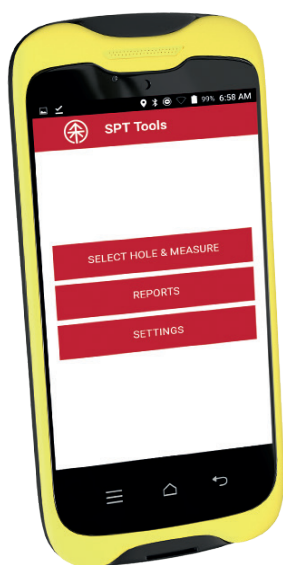

Eliminate redrilling,
save costs and
reduce downtime

Gyro RigAligner™

Technical Specifications

Dimensions		Battery	
Clamps Sizes	B-N, H-N, P 57 mm - 117 mm (2,24" - 4,6")	Battery Type	Lithium Ion Rechargeable
Length	242x162x82 mm (9,53x6,38x3,23")	Operating Time	10 hrs
Weight	5,3 kg (11,8 lbs)	Data	
Operational Environment		Communications	Bluetooth®
Continuos Data Output	Applicable	Export	SPT SmartCloud via WIFI or 4G LTE
Operational Temperature	-25°C - +60°C (-13°F - +140°F)	Handheld Device	
Setting Time	<5 m	Battery	4/6 hrs (8580 mAh)
Surface	Applicable	IP Rating	IP68, IP69K
Underground	Applicable	Performance*	
Azimuth Accuracy	0,4°	Inclination Accuracy	0.05°
Azimuth Range	0° - 360°	Inclination Range	-90° - +90°

* Accuracy quoted at 1σ

Align your drill rig in under 5 minutes

The *Gyro RigAligner*™ is a technological improvement on traditional rig alignment methods. Its north seeking technology paired with automated software makes it driller operated, replacing third party surveying services. Reduce costs and save time using our advanced rig alignment technology.

Lightweight device, built for heavy-duty use

Weighing only 4.4 kg (9.7lbs), this device was designed to be convenient and portable in heavy-duty conditions. Our solid-state advancements deliver real-time results using our wireless handheld device.

Eliminate redrilling and reduce downtime

Using our *Navibore*™ technology, the *Gyro RigAligner*™ provides the most accurate and reliable data in the drill rig alignment industry. Eliminates inaccurate data to maintain superior quality control and reduces downtime to complete your project as efficiently as possible.
