GyroScout™

Slim and compact continuous measurement gyro. Ideal for blast hole measurement

Reduce downtime and deliver accurate results

GyroScout™

Technical Specifications

Dimensions		Battery	
Length	950 mm (37,4")	Battery Type	Lithium Ion Rechargeable
Outer Diameter	32 mm (1,25")	Operating Time	24 hrs
Weight	2,6 kg (5,73 lbs)		
Operational Environment		Data	
Depth Pressure	2900 psi	Communications	Bluetooth®
Operational Temperature	-10°C - +60°C (+14°F - +140°F)	Export	SPT SmartCloud via WIFI or 4G LTE
		Export Format	PDF, Excel, CSV, LAS, DXF
		Graphic Generation	2D, 3D
		Survey Report	At any interval
Performance*		Handheld Device	
Azimuth Range	0° - 360°	Battery	4/6 hrs (8580 mAh)
Inclination Range	-90° - +90°	IP Rating	IP68, IP69K
Azimuth Accuracy	0,16°		
Inclination Accuracy	0,05°		
Typical Positional Accuracy	0,3%**		

* Accuracy quoted at 1σ

** Well profile dependent.

Maximum lightness without loss of accuracy

At only 32 millimeters in diameter and 950 millimeters in length, *GyroScout™* is one of the lightest, most portable and robust gyroscopes on the market. at 2.4 kg weight, it helps you to minimise time and optimise effort in survey operations.

Automated and intuitive software

The software used to control the *GyroScout™* is intuitive, simple and powerful at the same time, and includes the option of exporting detailed reports in the most widely used formats in the industry: PDF, Excel, CSV, LAS and DXF. The tool can instantly synchronize data in the cloud thanks to its native support for SPT *SmartCloud™* which allows you to manage and store measurements from all mining projects with complete security and data protection.

Handy and versatile design

GyroScout™ is a versatile tool; its rugged design allows it to operate at all angles in the most adverse conditions. It is the industry's smallest gyro with integrated pressure barrel. An optimal solution for blasting operations.
